

VIKAS HANDAGE

Bengaluru, Karnataka | +91-93539-02546 | vikashandage06@gmail.com | linkedin.com/in/vikas-handage | github.com/Vikas3655v

PROFESSIONAL SUMMARY

Full-Stack Web Developer and BTech Information Technology Graduate (CGPA 8.4) with hands-on experience building responsive, end-to-end web applications using React.js, Node.js, and MySQL. Skilled in developing RESTful APIs, authentication, and database design across the full development lifecycle — from UI to deployment. Fast learner and effective collaborator in agile, cross-functional teams.

TECHNICAL SKILLS

Frontend: React.js, JavaScript, HTML5, CSS3, Responsive Design

Backend: Node.js, Express.js, RESTful API Design, Java, Python

Databases: SQL, MongoDB (basics)

CS Fundamentals: Data Structures & Algorithms, Object-Oriented Programming, System Design Basics

Tools & Practices: Git, GitHub, Postman, Agile/Scrum, CI/CD Basics, Power BI, Excel

EXPERIENCE

AIML Intern — Rinex.AI Technologies Pvt Ltd

Mar 2024 – May 2024

Bengaluru, Karnataka

- Built and tested Python-based AI/ML models and data pipelines, strengthening backend logic and API integration skills later applied to full-stack projects
- Implemented and optimized machine learning algorithms, improving model performance through iterative testing
- Collaborated with a cross-functional engineering team in an agile workflow, presenting findings and technical trade-offs to stakeholders

PROJECTS

AI-Powered Smart Surveillance & Personalized Store Recommendations

May 2025 – Aug 2025

React.js, Node.js, MySQL, REST APIs, R-CNN

- Designed and built a full-stack web application connecting a React.js frontend to a Node.js/Express backend and MySQL database for real-time customer monitoring and analytics
- Developed RESTful APIs to serve AI model predictions (R-CNN object detection) to the frontend in real time
- Built a personalized product recommendation feature end-to-end, from database schema design to UI integration, using MySQL, React.js, and Node.js

Library Management System

Jan 2024 – Apr 2024

React.js, JavaScript, HTML, CSS

- Built a full-stack, responsive library management system for tracking books and users
- Implemented core features including book search, issue/return tracking, and user authentication
- Designed an intuitive, component-based UI with React.js and JavaScript to improve usability

Advance Counter Drone System for Localized Networks

Oct 2025 – Jan 2026

Python, Network Monitoring, Anomaly Detection, Telemetry Analysis

- Built a defensive network-monitoring system to capture and analyze live telemetry data for signs of unauthorized or suspicious drone activity
- Designed anomaly-detection logic to flag irregular telemetry patterns and distinguish suspicious behavior from normal network traffic
- Implemented a real-time alerting mechanism to notify operators immediately when a potential threat or anomaly is detected

EDUCATION

Alliance University — BTech in Information Technology, CGPA: 8.4

Aug 2022 – May 2026

Bengaluru, Karnataka

Diamond PU College — XII — Science (PCM), 80%

Aug 2019 – May 2021

Bidar, Karnataka

Morarji Desai Residential School — X — High School, 82.56%

June 2014 – April 2019

Bidar, Karnataka

CERTIFICATIONS

- Oracle Cloud Infrastructure 2025 AI Generative AI Professional — Oracle
- Microsoft Azure Developer Associate (AZ-204) Exam Prep — Coursera
- Oracle Data Platform 2025 Foundations Associate — Oracle
- IBM Data Analytics with Excel and R — Professional Certificate, Coursera
- Python for Everybody — Coursera
- Google AI & Machine Learning Certification
